```
      G                    D/F#              G     G C G
My heart was like an arrow to your shield
G   /F# Em             C                   D   Ds4 D
And in part I was a harrow to your field
            G    /F                 C     A7
Until we knew,     is how we grew
              C       Em  D         C            G       G C G
And so we learn a little more of how we're healed

            G                  D/F#                  G     G C G
And my soul was like a rainbow turned to rust
G     /F#  Em               C                   D   Ds4 D
And your feet that fly to earth a lover's lust
              G    /F                 C     A7
We kiss our lips,    our finger tips
                C          Em       D          C           G     G C G
We sway our hips and do the dance we know we must

Bm (A-Bm)                    G     G C G
          Arrow to your shield
Bm (A-Bm)                    G    G C G
          Harrow to your field
         C                D (C-shape fret 2)    Em  +f# +hammer off
It's the weight of the water that makes the tea
              C             D (C-shape fret 2)  Em  D2
And it's the cool of the sun that is energy

REPEAT ALL ABOVE

CODA (SLOW and SLOWING)

      G                        D/F#                      G        G      C     G
My heart  was  like  an     arrow   to    your      shield
